### About Us

CAGE: 47B72

DUNS: 606316623

A U.S.-based technology company focused on the development and delivery of advanced communications solutions utilizing light path technology. The company supports global Defense and Security Electro-Optics (EO) applications, particularly within Command, Control, Computers, Communications, Intelligence, Surveillance and Reconnaissance (C4ISR) environments where reliable, high-performance communications are mission critical. Built on more than 25 years of innovation and product development, Hooker Tactical specializes in next-generation communication platforms that leverage light-based technologies to enable secure, efficient, and high bandwidth connectivity for defense and law enforcement operations.

### Core Competencies

- Proficiency in optical design and beam splitting engineering and integration.
- Solid expertise in image processing and analysis with electronic design and integration.
- Mechanical engineering and manufacturing.
- Testing, evaluation and quality control.
- Deep understanding of defense operations and requirements.

### Differentiators

- 25 years of experience in design and product development.
- Rugged design utilizing indestructible aircraft grade aluminum that is suitable of mil-grade applications.
- Light weight - 4 Oz Eye Cams and 16 Oz Riflescope 3rd Eye cams.
- Easy to use - can be attached and detached in less than 3 seconds.
- Outstanding quality with 15 years of field service with no errors.
- Interoperability - works easily with any in-service scope.
- Radio agnostic - Works with different SDRs, Satcom, LTE.

### NAICS Codes

- **423990** - Ammunition merchant wholesalers
- **332992** - Small Arms Ammunition Manufacturer
- **334220** - Radio & TV Broadcasting & Wireless Communications Equipment
- **334310** - Audio & Video Equipment Manufacturer
